

PCH (Pizza Cutter Holder) Contest

Starts NOW through 12-6-23 Midnight PST

We make Pizza Cutter Holders for the most popular kits from Niles/CSUSA. PSI, Rockler and Woodcraft

Photos must show a functional HANDMADE by you 4" cutter/handle, but material used for the handle is up to you. Setting for the photo is up to you as well, could be just the cutter and handle, could be in use, but you will want sharp and well-lit photos.

Up to 10 submissions per user

Photos can be JPG or PNG, but must be below 2MB each. This is blind voting, no watermarks, users faces or emails in the photos. Photos are submitted on the Turningwood.com website contest page.

Open to anyone in the USA, no purchase necessary except the kits you have already purchased.

Voting will be by you peers, anyone who wants to, and is done on the Turningwood.com website contest page. Each user is limited to one vote per photo but only limited to the total number of submissions.

There will also be judges who have super voting abilities, up to 50 extra votes per prize.

Each Wednesday throughout the contest, there will be a Niles Pizza cutter prize package awarded to the submission with the most votes. That Wednesday submission is not qualified to win again until the Grand Prize day.

The Niles prize pack consists of

- 1 – 4" Pizza Cutter kit
- 1 – Mandrel – either MT or direct attach
- 1 – pizza cutter mandrel adapter
- 1 Turningwood Pizza Cutter Holder – color choice is yours

Wednesday prizes are on

11-15-23 11-22-23 11-29-23

Grand prize is awarded after contest close, the week of 12-6-23

There will be a few prizes awarded during the contest period for things like most creative, best photo, coolest design, whatever, you get the idea, AS WELL AS those who like and subscribe to the Turningwood.com YouTube channel. Still limited to the USA.

For those submissions, like, subscribe and comment where you live.

Grand Prize is

Robust medium handled skew

Niles Cutter prize package

Abranet and Abralon sanding package

Rules subject to change
